A Collection curated by Stefano Del Vecchio

During the Milano Design Week, Delvis will open its first showroom in Piazza Cadorna, situated in Milan's city centre.

Stefano Del Vecchio will be launching his Delvis Unlimited collection, a truly unique production of furniture by using one-off pieces which have been personally selected for the occasion by the founder Mr. Del Vecchio himself.

The Unlimited Collection was produced in collaboration with young, Italian Designers. Together they were able to produce a precise selection of materials and techniques. The natural materials used, such as wood, stone, iron are combined in contrast with the artifice of the unique details on all the elaborated surfaces which gives meaning to the Unlimited Collection and creates a unique vision that is both personal and universal, Unlimited as limitless are the shapes and ways of human creativity.
